

NASHVILLE CIVIC DESIGN CENTER

MASTER PLAN FOR BALLPARK AND ADJACENT DEVELOPMENT TO BE RELEASED AT PUBLIC MEETING ON MAY 19, 2006

The Nashville Civic Design Center will hold a public meeting, in conjunction with the Nashville Sounds and Struever Bros. Eccles & Rouse, on Friday, May 19, 2006 to gather feedback on a master plan for the new Nashville Sounds baseball park and the adjacent mixed-use development proposed by Struever Bros. for downtown Nashville. The meeting, which is open to the public, will be held at the Nashville Downtown Library at 615 Church Street from 12:30 – 2:00 p.m. Meeting sign-in will begin at 12:00 p.m.

Representatives of the Nashville Sounds and Struever Bros. Eccles and Rouse development and design teams will present their master plan which will include the orientation of the baseball field and the footprint and massing (scale) of the ballpark and other buildings that will be part of the mixed-use development on the former Thermal Transfer Plant site. The public is encouraged to attend the meeting and provide feedback and additional input on the master plan.

The May 19th public meeting is a follow-up to a design workshop held on December 15, 2005, also convened by the Nashville Civic Design Center, at which the Nashville Sounds and Struever Bros. sought input on various design issues including the size, scale and location of the various components of the development.
