"HASTINGS has proudly sponsored the Civic Design Center for 16 years. With Nashville's unprecedented growth in that time, the Design Center has always centered the community, bridging the divide between high design and local advocates. The team has been a critical collaborator, co-conspirator, and dedicated champion for improving quality of life for all."

## **WHAT WE DO**

Sometimes it takes showing people design ideas they never imagined possible to get them to rally for urban design that is truly livable.

#### **DESIGN STUDIO**

Our Design Studio envisions bold urban planning and development ideas that are founded in our Guiding Principles for Civic Design. We focus on advocating for representing people's perspectives, reclaiming public space, and encouraging equitable transit among other elements that could make our city more livable.

#### **PROGRAMS**

Our youth education programs teach young people about issues that affect their communities, like affordable housing and transportation. Both our education programs and our TURBO program use "tactical urbanism" to create experimental interventions that allow people to consider other design opportunities in their neighborhoods.

#### **EUENTS**

We have hosted regular Urban Design Forums since 1995 to encourage public debate, interdisciplinary networking, and knowledge around critical design opportunities happening in Nashville.

We also host a major annual advocacy event called PARK(ing) Day that transforms parallel parking into pop-up parks for one day to raise awareness about the need for more public space in our communities.
